TWO PARIS BANKS CONSOLIDATED INTO ONE.

Two Popular Financial Institutions Merge Under One Head.

S. E. BEDFORD

NEW PRESIDENT.

Consolidation Will Become Effective Early in July.

As the result of plans which have been under consideration for several days, and which were finally brought to a head here Wednesday, two of the best-known financial institutions in the city, the Deposit Bank of Paris, and the Peoples' Bank, will be merged into one institution, the consolidation becoming effective early in July.

The combination was effected at a joint meeting of the directors of both banks, when all the details were worked out.

The Deposit Bank is the oldest bank in Bourbon County, having been originally organized in 1851, and has long been one of the most popular and prosperous banks of the city. Its last statement showed deposits of \$407,000, and loans of \$470,000, while the last statement of the Peoples' Bank, which began business in September, 1912 showed deposits of \$140,000, and loans of \$200,000. The combined capital will be \$150,000; deposits, \$550,000; loans, \$700,000; assets, \$850,000. The Peoples' Bank has had a business existence of about twenty months.

Under the terms of the merger the Peoples' Bank will be liquidated and all its assets and business merged into the Deposit Bank and the stockholders of the Peoples' Bank will be given an equal amount of stock in the combined bank by paying enough to equalize the stock value.

Mr. Silas Bedford, the present cashier of the Peoples' Bank, will be the president of the new bank and Mr. Clarence Thomas, cashier of the Deposit Bank, will be the cashier of the combined bank. Both of these gentlemen have had large experience in the banking business, Mr. Bedford having been for many years cashier of the Bourbon Bank before the Peoples' Bank was organized, and Mr. Thomas having been connected with the Deposit Bank for some fifteen years or more, a large part of the time as cashier. Both have the entire confidence of the community.

Mr. Joseph M. Hall, who has been president of the Deposit Bank since 1892, will retire from the presidency on account of his private business, which demands his time. All the directors of the Peoples' Bank will be taken into the directorate of the new bank, and all the employees of both banks will hold their present positions in the consolidated bank, and the place of business of the new institution will be the Deposit Bank building.

The combined bank will be the largest and strongest financial institution in Bourbon County, and, judging from the past of both the parties to the merger, they will play an important part in the financial future of this city and county.

The large room in the rear of the bank building, now occupied by Mr. Frank Remington's job printing establishment, will be remodeled and utilized as a room for the big vault and safe.

The bank will open its doors under the new institutional name of "The Deposite and Peoples' Bank" early in July.

CENTRAL KENTUCKY IN GRASP OF A TORRID WAVE.

For a week or more this section of Kentucky has been literally sizzling under a tropical sun, the mercury in reliable thermometers ranging from 96 to 101 at various times and places. Sweltering humanity pursued its everyday work in as little raiment as the law allowed, and when the evening shadows crept on sought the outdoors for relief, all to no avail. The heat at night almost equaled that of the daylight hours. Men and beast alike suffered, and while no prostrations from heat have been officially reported, there have been several cases in the county.

The intense heat and the lack of rain has caused a temporary cessation in the work of tobacco transplanting, and the growers are forced to play the Wilson-Bryan plan of "Watchful Waiting."

The poet wrote "Oh What so Rare as a Day in June."

If that guy happened to revisit old mother earth he would find that the June days in this section are "well done, parboiled, fried, oven-baked and sizzled."

ENCOURAGING NEWS RECEIVED.

Senatorial and Congressional Candidates Satisfied With the Outlook.

TO CARRY FRANKLIN.
FRANKFORT, KY., June 25.—The Claude Thomas organization in Franklin County will be presided over during the campaign by Dr. Joseph Severance, of this city, one of the most widely known pulpits orators in the State. Although a minister, Dr. Severance has always taken a likely interest in politics, and is a member of the city council.

He was formerly chaplain at the State Penitentiary. Thomas headquarters will be opened and a hard fight will be made to carry the county for him.

THOMAS AT OWENTON.
OWENTON, KY., June 22.—Claude M. Thomas to-day made a strong speech in behalf of his candidacy for the Democratic nomination for Congress to a crowd which fairly well filled the court house at Owenton.

Mr. Thomas reviewed the record of Congressman J. Campbell Cantrill as a consistent supporter of the liquor interest in politics and told of the aid given by the Congressman to the Republicans in the election of Governor Bradley to the Senate over Governor Beckham.

Mr. Thomas was introduced in a pleasing manner by Judge J. W. Cammack. A feature of the meeting was the attendance of perhaps forty of the Cantrill organization from Scott County, in automobiles, wearing big red Cantrill badges. They aroused considerable adverse comment by their presence, and their flaunting of the badges before a crowd gathered to hear the opponent of the candidate they represented.

Twenty-five residents of Scott County, who formerly were citizens of Owen, came from Georgetown to hear Mr. Thomas. He made a good impression, and the Cantrill men in this county are scared and some of them are frank enough to admit it.

EXPRESSES CONFIDENCE

"Mr. E. K. Thomas, of Bourbon County, father of Hon. C. M. Thomas, candidate for Congress from the Seventh Congressional District, opposing the present incumbent, J. Campbell Cantrill, was in Winchester Monday mingling with the court day crowd, and interesting the voters in the candidacy (Continued on Page 8.)"

By defeating Lexington, Tuesday, 5 to 4, Paris won its first game since entering the Ohio State League. Lexington scored two in the fourth on three singles and error. Paris came strong in their half and scored three on a single and home runs by Daubert and Applegate. Lexington scored two more in the sixth on two singles and two errors. Paris also scored two on two singles and a base on ball. The features of the game was the hitting of Crouch and Applegate and the fielding of Hobbs.

EPWORTH LEAGUE IN THREE DAYS' SESSION HERE.

League Opens Interesting Session at the Methodist Church.

PRESIDENT HARRIS

PRESIDES

White and Gold Captures the City and is Everywhere In Evidence.

The Fifth Annual Assembly of the Kentucky Conference Epworth League opened its three-days' session at the Methodist Church, in this city, Tuesday night. A large number of delegates and visitors was in attendance. The church was beautifully decorated for the occasion in the Epworth League colors, white and gold.

The delegates were welcomed by the President of the Paris League, Mr. Dennis V. Snapp, in an address full of bright thought. The response on behalf of the visitors and delegates was made by Rev. J. B. Harris, Pres-

MR. DENNIS V. SNAPP,
President Paris Epworth League.
Who Delivered the Welcome Address

ident of the Kentucky Conference League. Rev. Dr. E. G. B. Mann, of Lexington, delivered the opening sermon, which was an eloquent one, and greatly enjoyed.

After the exercises at the church the delegates adjourned to the lawn at Mrs. Russell Mann's residence, where they were tendered a reception by the officers and members of the Paris Epworth League. Punch and ices were served and a general good time was enjoyed by all.

During his welcome address Mr. Snapp presented the presiding officer a very unique gift, a gavel, made from the wood taken from an old mill-dam which the court records show was made across Stoner Creek near the Paris Mill in the year 1792, and which was revealed in the dry channel of Stoner during the unprecedented drouth of 1913. A silver plate on the gavel bears this inscription: "Presented to President J. B. Harris by the Paris Epworth League, June 23, 1914."

The music was an especial feature of the opening session. Mrs. James Grinnell rendered a beautiful solo and several selections were given by a male quartette.

During the reception at Mrs. Mann's an open air concert was given by the Paris High School Band, which added greatly to the enjoyment of the occasion.

WEDNESDAY'S SESSION

The second day's session opened with a morning prayer service from 6:00 to 6:45, led by Rev. J. O. A. Vaught, with Miss Violet Renaker, of Cynthiana, at the piano. This was followed by a song service led by Prof. A. H. Morehead.

The sessions were presided over by the conference president, Rev. J. B. Harris, with Secretary O. B. Crockett in his place. After the reports from the chapters were presented, a round table discussion was conducted by Miss Violet Renaker, during which helpful suggestions were considered as to the departments of membership, social, literary, devotional, mission study classes, Bible character studies, the quiet hour, prayer circles and report of work to the Central Methodist, a column in which is conducted by Miss Renaker.

President J. L. Clark, of Kentucky Wesleyan College, Winchester, was on the program for an address, but being unable to be present, his place was supplied by Rev. O. B. Crockett, of Nicholasville, who preached an excellent sermon on "Practical Christianity." Prayers were offered by Rev. G. W. Crutchfield, of Jenkins, and C.

That Weak Back

accompanied by pain here or there—extreme nervousness—sleeplessness—may be faint spells—spasms—all are signals of distress for a woman. She may be growing from girlhood into womanhood—passing from womanhood to motherhood—or later suffering from that change into middle life which leaves so many wrecks of women. At any or all of these periods of a woman's life she should take a tonic and nerve prescribed for just such cases by a physician of vast experience in the diseases of women.

DR. PIERCE'S Favorite Prescription

has successfully treated more cases in past forty years than any other known remedy. It can now be had in sugar-coated, tablet form as well as in the liquid. Sold by medicine dealers or trial box by mail on receipt of 50 cents in stamps.

Miss Elizabeth Lordahl of Berkeley, Cal., in a recent letter to Dr. Pierce said: "I was completely broken down in health, I was aching and had pains all over my body and was so nervous that I could scarcely sleep. I had the good fortune to meet a nurse who had been cured by Dr. Pierce's Favorite Prescription. I have never had an occasion to consult a physician since—am in excellent health."

HOW CHILDREN GROW.

Children grow by nourishment—not overloaded stomachs or rich foods but qualities that are readily converted into life-sustaining blood; too often their digestive powers cannot procure these qualities from ordinary foods which results in weakness, dullness and sick ness. If your children are under-size, underweight, catch cold easily, are languid, backward, pale or frail, give them Scott's Emulsion which is pure medicine and nourishment. It sharpens the appetite, builds healthy flesh, firm muscles and active brains. Scott's is growing food for children. Refuse alcoholic substitutes.

TOBACCO MEN ELECT OFFICERS AND ADJOURN.

The meeting of the United States Tobacco Association in session in Lexington came to a close Friday, the principal business of the closing day being the election of officers for the ensuing year, the day being spent by most of the delegates in visiting places of interest in the morning and the matinee trots in the afternoon.

President T. M. Carrington, of Richmond, Va., and Secretary-Treasurer G. E. Webb, of Winston-Salem, N. C., were re-elected to their respective positions. Mr. W. L. Petty of Lexington, was elected First Vice President, while Messrs. R. P. Wilson, of Wilson, N. C., and B. P. Eggleston, of Drake's Branch, Va., were elected second and third vice presidents respectively.

The election was held immediately after the luncheon served them by the Burley Tobacco Society at the former site of High Oaks Sanitarium.

Directors: W. T. Reade, Richmond, Va.; A. P. Thorpe, Rocky Mount, N. C.; W. O. Mitchell, Oxford, N. C.; J. L. Wingo, Richmond, Va.; S. W. Venable, Durham, N. C.; W. L. McGill, Petersburg, Va.; G. T. Patton, Darlington, N. C.; J. I. Miller, Winston-Salem, N. C.; G. O. Tuck, Louisville; E. J. O'Brien, Louisville; M. H. Irvine, Lexington; H. E. Spillman, Huntington, W. Va.; E. B. Ficklin, Greenville, N. C.; E. V. Webb, Kingston, N. C.; W. G. Rogers, Warrenton, N. C.; J. M. Edmonds, Wilson, N. C.; C. A. Walters, South Boston, Va.; M. R. Cotton, Louisville, Ky.; J. A. Clark, Bedford City, Va.

Following the election the board of directors met and re-elected G. E. Webb, of Winston-Salem, N. C., secretary-treasurer for the ensuing year.

ONLY ONE ENTIRELY SATISFACTORY.

"I have tried various colic and diarrhoea remedies but the only one that has given me entire satisfaction and cured me when I was afflicted is Chamberlain's Colic, Cholera and Diarrhoea Remedy. U. S. GOVERNMENT PICKS FOREST RESERVE SITE

The watershed of the Eastern Appalachian slope in Pike and Letcher counties, where the headwaters of the headquarters of the Cumberland, Kentucky, Licking and Big Sandy are divided by the ridges of Pine Mountain, has been selected by the Government Bureau of Forestry for a forest reserve in Eastern Kentucky, and a reconnaissance crew will go to work in that section the first of July and spend a month locating the most desirable area for reforestation and protection of the watershed.

The government also will select a location for reserves in West Virginia and Virginia near the Kentucky border, part of the reserve probably running into all three States. The bureau expects to have options ready so that the necessary appropriation may be secured from the next Congress.

State Forester J. E. Barton will meet with the Government crew in the mountains about August 1.

FOR AN IMPAIRED APPETITE.

To improve the appetite and to strengthen the digestion try a few doses of Chamberlain's Tablets. Mr. J. H. Seitz, of Detroit, Mich., says: "They restored my appetite when impaired, relieved me of a bloated feeling and caused a pleasant and satisfactory movement of the bowels."

NEGROES ARE DRIVEN OUT OF TOWN OF SHOSHONE.

Citizens of Shoshone, Idaho, drove all negroes out of that town Friday night after Jack Edwards, colored, while resisting arrest on a charge of drunkenness, had shot James May, the town marshal, and E. V. Brower, treasurer of Lincoln County. Brower's wound may prove fatal. The negro was caught and taken back to Shoshone.

GET RID OF YOUR RHEUMATISM.

Now is the time to get rid of your rheumatism. You can do it if you apply Chamberlain's Liniment. W. A. Lockhard, Homer City, N. Y., writes, "Last spring I suffered from my arms and shoulders. I got a bottle of Chamberlain's Liniment and the first application relieved me. By using one bottle of it I was entirely cured." For sale by all dealers.

STOCK AND FARM NOTES.

Shipments of Argentine cattle to the United States for the first two weeks of June aggregated 64,000 quarters, equal to 16,000 head of live cattle.

The tobacco is about all transplanted in Bourbon County and some of it look well, though rain is needed to give the young plants a good start. A large acreage will be cultivated in the county, and large returns are anticipated, especially if fertilizers are judiciously used. Cut worms are said to be doing some damage.

Fat cattle are in excellent condition and are taking on flesh well. They are standing the hot weather fine and will be in good shape when the market opens, which will be the latter part of the month. There has been a few cattle sold at prices ranging from 7 1/2 to 8 cents, but from talks with cattlemen they believe that the price will advance considerably over that figure. These fat cattle begin to move steadily in July, August, September and October.

"Cured"

Mrs. Jay McGee, of Stephenville, Texas, writes: "For nine (9) years, I suffered with womanly trouble. I had terrible headaches, and pains in my back, etc. It seemed as if I would die, I suffered so. At last, I decided to try Cardui, the woman's tonic, and it helped me right away. The full treatment not only helped me, but it cured me."

Cardui
The Woman's Tonic

Cardui helps women in time of greatest need, because it contains ingredients which act specifically, yet gently, on the weakened womanly organs. So, if you feel discouraged, blue, out-of-sorts, unable to do your household work, on account of your condition, stop worrying and give Cardui a trial. It has helped thousands of women—why not you? THE POLONAISE, THE SASH, THE LONG TUNIC SKIRTS

Mother's Frocks Are Simplified to Suit the Daughter.

ACCORDION PLEATING CONTRASTING HEM.

NEW YORK, June 25. From out of Father Time's Chest, from the till labeled 1880 have come the basque and polonaise. To be sure they look different, but so slight is the change that it seems as though it is the figure of the woman rather than the cut of the garment itself that makes them seem a part of the fashions of 1914. Then the waists were small and compressed, now the larger the waist the prouder the well built woman is. In fact, pads have been worn by naturally small-sized women to make them appear larger around the waist than nature really intended them to be.

Dark Blue Foulard Dress With New Paquin Skirt

Sashes are worn with these waists, which tie at a low line in the back, causing or adding to the bustle effect which was also a part of the fashions when these waists were worn before.

The skirts of these dresses are mostly made with a long tunic, though some are made with a series of ruffles from hem to waistline.

The long tunics are being made in sheer and thin materials and are even more charming than in the heavier materials. A dress of cerise crepe with a ratine stripe is made with a long tunic over a narrow underskirt of the same material. The waist is made with a surplice front having a shawl collar. A chemisette of folded chiffon in creamy white is worn. At the back of the waist hanging from the shoulders to below the waist line is a circular cape.

With this was worn a charming flat Louis XIV hat of leghorn, well tilted up at the back, and upheld by a bandeau of small flowers. A sparse wreath of these same flowers (daisies, roses and forget-me-nots) circles the top, across which a black velvet ribbon extends, tying behind under the bandeau of flowers and falling well onto the hair beneath.

Likewise for afternoon and evening wear, planned to wear with this same leghorn hat, was a sheer organdy frock, bunched and picot edged. The three flounces were narrower both in depth and width as they descended. This gave a wide hip and narrow foot-line silhouette.

There are always occasions when trips to town or week-ends in the country are suddenly planned, and if one's clothes are not in condition for such a contingency the pleasurable trip is spoiled. For such an occasion a silk dress; light in weight and stylishly made is appreciated. It does not have to be laundered. Its simple cut fits it for all sorts of informal affairs, while more dressy materials will allow of its being used for the more formal occasions. The illustration is a smart example of a dress to fill such a need—in blue foulard. The waist has the raglan shoulder line with set-in sleeves. The revers of the waist turn back from a vestee of net, whose fullness is gathered up on a silken cord. The skirt is made with fullness in the flounced lower section, a la Paquin. The white hat worn with this dress is of the stylish tri-corn shape—with a single white rose,

and green leaves set in each indentation at the front of the hat with a long feather extending from each.

As the girl passes the age of twelve years, dressing her, becomes a problem. She begins to have ideas of her own, and mother's opinions are being constantly jostled from the even tenor of her established views of what is proper, what is too young, and what is too old, for her daughter to wear.

In my illustration is a girlish dress to strike the happy medium of what mother likes and of what daughter likes. Plain white crepe is the material used, with vest and cuffs of white crepe, having a ratine strip evenly spaced across it. The shirred skirt with tunic is of the latest style, which no longer confines the ankles, but allows free and unhampered motions. A wide girle of royal blue satin completes the costume. The hair is worn loosely combed back and tied at the nape of the neck with a large blue satin bow.

The frocks for a young girl follow closely upon the style of her mother's dresses, only simplified to suit her youth. Tunics and panniers are modified, while fluffy ruffles on dresses of sheer material are all supreme. A charming dress of sheerest of batiste is made with five ruffles, one above the other. Each ruffle is lace edged and corded on the edge which is stitched to the skirt. At the waist the skirt is finished with a narrow ruffle corded and fastened to the top of the skirt looking as though it were the top edge of the skirt. The waist was made with the body and sleeves in one and cut low, drooping off the shoulders, with the fullness corded and drawn up on the cord. A tucker of net is finished with a narrow frill of itself to fill in the neck of the dress.

Girlish Frock of White Crepe with Royal Blue Satin Girle.

With the returning fullness of skirts, accordion pleated is enjoying unexpected favor. The lower section of the long Dutch tunic skirts are accordion pleated, and sometimes the tunic itself with a plain lower section. A charming blouse is made of accordion pleated chiffon, which is set on to a yoke which is in one with the sleeves.

Many thin frocks are made with a hem of heavier material. A red voile had a hem of natural colored linen. A dress of embroidery flouncing had a wide fold of pink silk set under the scalloped edge of the skirt hem, thereby adding to the charm as well as to the durability of the frock, for a hem is usually of material stronger than that with which it is combined.

Sashes are seen on many of the summer models. They are often straight pieces of ribbon passed around the waist and tied into a loose bow much in the same manner as the sashes of a child's apron. To keep up with this popularity the ribbons are much more elaborate than they were, and are a reminder of what our grandmothers wore in thier girlhood, flowered and brocaded, in which satin and velvet designs are intermingled with moire effects. There are also the Egyptian sashes of Oriental colorings which wind round the body fully swathing the waists and hips.

WINCHESTER MAN SUES PARIS SEED DEALER FOR \$5,000.

R. P. Scobee, of Winchester, filed suit Tuesday in the Clark Circuit Court against Ford Brent, of Paris, to recover \$5,000 which he alleges he paid over to Mr. Brent on a wager concerning the price of bluegrass seed. Mr. Scobee sets out that in the spring and summer of 1911, he and Mr. Brent entered into a wager or bet, in the form of contracts, by which the plaintiff was to sell a large quantity of bluegrass seed to Brent for August delivery. He sets out that it was not expected by either that the seed was to be delivered, but the wager should be settled by the payment of money, the difference between the price mentioned in the wager or purported contract, and the market price on August 1, 1911, in case the price went higher, Scobee to pay Brent the difference, and in case it went lower, Brent to pay Scobee the difference.

The price of grass seed rapidly advanced, Scobee claiming that Brent, at the time of the wager, had entered into an illegal combine with R. B. Hutchcraft and others to control the price of the seed, and Scobee, in settlement, paid Brent the sum of \$5,000 cash and gave his promissory note for \$6,000, which \$11,000 constituted the difference in the market price and the price named in the alleged wager.

Scobee avers the money was paid on a wager and the purported contract is void under the law. He says Brent knew no seed was to be delivered by him, and at the time of the purported contract Brent and his associates had practically full control of the bluegrass seed market.

The note for \$6,000 mentioned in his petition by Mr. Scobee has been purchased by a Paris Bank, and suit has been brought against Mr. Scobee to cover the amount of it.

EPWORTH LEAGUE CONFERENCE.

Continued From Page 1.)

W. Williams, of Oddville.

At the noon hour a bountiful luncheon was served by the women of the Paris church.

During the afternoon session the following important committees were appointed:

Constitution—J. B. Harris and Miss Christine Hendricks.

Resolutions—J. W. Crates, Miss Myrtle Smith and P. Ragan.

Reports—T. W. Watts, Miss Martha Irvine and William Collins.

Temperance and Sabbath Observance—T. W. Barker, Miss Mary E. Chinn and Miss Marjorie Foster.

Missions—Miss Julia Crutchfield, Miss Beulah Hudson and Miss Ollie Fisher.

Nominating—J. W. Crutchfield, Miss Ruth Walker, Mrs. H. A. Power and Miss Beulah Hudson.

The principal speaker of the afternoon was Dr. J. Marvin Culbreth, Assistant General Epworth League Secretary, who gave instructions on league organization. The temperance committee offered a resolution endorsing the Webb-Kenyon bill now pending in Congress, with instructions to send a copy of the resolutions to the Congressmen of the districts represented, asking them to vote for the measure on nation-wide prohibition.

After the conclusion of the day's session, the delegates, sixty-six in number, assembled at the Chippewa Boat Club's Camp, and were taken a ride up "beautiful Stoner."

The flotilla of fourteen boats, was towed by the Chippewa's three electric launches under command of Commodore Mitchell Jackson, and Capt. Ben Downey and Doug. Thomas. The guests thoroughly enjoyed the trip, and one young woman voiced the unspoken sentiment of all when she said "This is the most beautiful stream of water in Kentucky."

Yesterday's program began with the morning prayer, from 6 to 6:45 a. m. led by Rev. J. O. H. Vaughn. The remainder of the program as follows was carried out:

Song Service; Sectional Conferences, Senior and Junior Teams; Round Table, Miss Violet Renaker, of Cynthiaana League; "A Constructive Program of Recreation for a Community," by the team; Reports of Chapters; Address, Mr. Stanley A. Harris; Parliamentary; "Where Shall I Attend College; College Representatives; Recreation; Reports; Address, Dr. Frank Y. Jackson.

WELCOME ADDRESS.

I am delighted to avail myself of this opportunity to stand before this assembly this evening. It is my purpose to give voice to the spontaneous feeling of good will which this whole community, and more especially this congregation and the local League, cherishes toward you, our guests. I am here to greet you, not because of any extraordinary gift of speech or fluency, but as President of the Paris Epworth League, to impress you that our hearts and homes are open and ready to receive you.

Ever since man was created he has dreamed dreams, and when such dreams materialized he has been wonderfully pleased and often very much surprised. In the year 1910, when but a small boy in short trousers, I was elected by the Paris League, then composed of about thirty members, to represent them at the first Kentucky Epworth League Conference, which met in Mt. Sterling. The conference was then organized. Even then I longed for the time to come when the Paris League could invite and entertain the Conference. I was again elected to represent the Paris Chapter at the second Conference at Millersburg, and also the third at Cynthiaana. And last year was complimented by election to the fourth Conference at Nicholasville, and this time as an instructed delegate to invite the Fifth Annual Assembly to meet in Paris. Thus my one time dream became a reality. Few persons have been fortunate enough to have the pleasure of their dreams coming true, as I have this evening.

Allow me here to say a few words in regard to the Paris Chapter, in whose behalf I am here to welcome you. Up to this time last year the membership of the Paris Chapter was about forty, and since it was chartered in 1894, from what I can learn, it has never surpassed the fifty mark. Soon after the Conference last June we started a campaign to reach the century mark and to interest more young people in League work, and in one month's time secured thirty applications for membership. In March we started a similar campaign and succeeded in adding thirty more to our roll. We have now reached the one hundred mark.

While we may be the leading League in point of membership, our report this year cannot be based in other respects on a League of but forty members. Our Conference pledges, our missionary specials will not therefore ap-

An Ordinance

Ordering the Improvement of Main Street, in the City of Paris, Ky., from the South Side of Tenth Street to the North Side of Bank Row, with Bitulithic Paving.

Be it Ordained by the Board of Council of the City of Paris:

Section 1. Main Street in the City of Paris, Kentucky, from south side of Tenth Street to north side of Bank Row, is hereby ordered improved by the removal of the present wearing surface thereon and by the construction of wood, block, or vitrified brick or bitulithic paving upon the present concrete foundation. Said improvement, if bitulithic paving is used shall be made in accordance with the specifications hereinafter provided.

Section 2. The said improvement shall be done at the exclusive cost of the City of Paris, and shall be paid for in cash upon completion and acceptance of the work.

Section 3. Said improvement shall be done in accordance with the following specifications:

SPECIFICATIONS:

The present wearing surface shall be removed from the present concrete foundation, and all material so removed shall be deposited by the contractor at the city quarry or at any other points which may be selected by the Mayor, such points, however, to be no further distance from the point of removal than the city quarry. Upon the present concrete foundation shall then be laid the following wearing surface:

Such wearing surface shall be composed of hard crushed stone, sand and bituminous cement, and shall have the thickness, when compressed, of two inches.

In preparing the mineral aggregate for the above wearing surface the following method and apparatus shall be used:

The several grades and sizes of mineral aggregate shall be accurately measured in proportions previously determined by laboratory tests to give the best results, that is, the most dense mixture of mineral aggregate and one having inherent stability, heated in a rotary mechanical heater, so designated as to keep each batch by itself until heated and then pass into a rotary mixer; or the varying sizes of stone approximately proportioned shall be fed into an elevator terminating and discharging into a rotary dryer, and, after heating, the stone shall be elevated and passed through a rotary screen having sections with various size openings. The minimum screen opening shall be a one-tenth inch, and the maximum shall not be greater than one and one-half inch. The difference in the width of openings in successive sections shall not exceed one-fourth inch in sections having openings smaller than one-half inch, and shall not exceed one half inch in sections having openings greater than one-half inch. The several sizes of stone thus separated by the screen sections shall pass into a bin containing sections or compartments corresponding to the screen sections. From these compartments the stone shall be drawn into a weigh box resting on a multi-beam scale. The several sizes of mineral aggregate, after being separately weighed and measured as above, shall be dropped into a twin pug or other approved form or mixer. In the mixer bitulithic cement shall be added in sufficient quantity to coat all particles and fill such voids as remain unfilled by the proportionment of the mineral aggregate. The aggregate shall be so proportioned as to secure in the aggregate inherent stability, density freedom from voids and resistance to displacement, and a mixture which when combined with the bitulithic cement and compacted together will form a bituminous street pavement structure containing mixed mineral ingredients of such grades as will give the structure inherent stability, and one in which the largest and smallest piece are associated with each other indiscriminately throughout the structure, and in which the plastic bituminous composition permeates the entire mass, uniting the various sized particles thereof; filling the voids and forming the wearing surface. If the crushed stone does not contain finely divided particles to fill the small voids in the aggregate, the deficiency of these finely divided particles shall be made up by the addition of sand or other suitable fine mineral matter.

The mineral aggregate shall be heated and mixed with a bitulithic cement at a temperature consistent with good workmanship. The whole mixture shall be hot enough when reaching the street to be capable of being spread and raked without difficulty, and not so hot as to injure the bitulithic cement.

There shall be spread over the bitulithic surface mixture a seal coat, using per square yard of bitulithic pavement approximately one-fourth gallon of bitulithic cement, into which shall be incorporated approximately twenty-five pounds of mineral aggregate not larger than one-quarter inch diameter. After spreading the seal coat, it shall be thoroughly rolled into the bitulithic surface mixture.

Each layer of the work shall be kept as free as possible from dirt, so that it will unite with the succeeding layer.

The bituminous composition or cement shall in each case be free from water, and shall be especially refined to remove volatile and other matter susceptible to atmospheric influences.

Section 4. The contractor will be required to execute bond with surety to be approved by the Mayor in the penal sum of twenty per cent. of the amount of the contract price for said work, guaranteeing said work against defective workmanship and material, for a period of five years from the date of the completion and acceptance of said work, and agreeing to repair and replace any defects appearing in said street during said period because of any defective workmanship or material.

The contractor will also be required to execute bond to the city with surety to be approved by the Mayor, agreeing to protect and indemnify the city against and from any loss or damage which it may sustain because of any negligence on the part of the contractor.

Section 5. Should it be necessary to repair or replace any part of the present concrete foundation, then the contractor shall be allowed the actual cost of such work, plus fifteen per cent for supervision.

Section 6. The Mayor is hereby directed and authorized to receive bids for the doing of said work on Wednesday, July 8, 1914, and is further directed to advertise for bids for the doing of said work by advertisements in the Kentuckian-Citizen or Bourbon News, newspapers published in the City of Paris, such advertisement to be made in each issue of said paper between the date of this ordinance and the date fixed for the reception of bids.

Section 7. This ordinance shall take effect from and after its passage, approval and publication as required by law.

STORM INTERFERES WITH
ELECTRICAL SERVICE IN CITY

During the storm which passed over Paris and vicinity yesterday afternoon several poles carrying the high tension wire of the Lexington service which supplies Paris with light and power, were blown down, and connections severed. The light and power service for Paris was interfered with, temporarily, but energetic work by the company's workers had the service restored by 7 p. m. The worst damage was done between station 34 and 35 on the interurban line between Paris and Lexington. The Paris Gas & Electric Light Co.'s office was besieged by anxious inquirers. Superintendent Steenbergen and assistants got busy and by dint of persistent work got assurances from the Lexington end of the line that the service would be resumed by 7:00 p. m. Every effort that could be made to restore the service was made by the Paris officials and they even made arrangements to start up the Paris plant, when the current came on and service resumed.

ELECTRICAL STORM

Severe Storm Passes Over Paris and Vicinity Yesterday Afternoon

Following several days of extreme heat, a storm of great severity developed in this section yesterday afternoon, doing considerable damage, but nothing of a very serious nature, so far as could be ascertained.

Lightning struck the steeple of the Presbyterian Church, corner of Pleasant and Sixth Streets, tearing out a window casing and breaking several panes of glass.

Two horses being led from a stable just below the church, by James Elliott, were stunned and thrown to the ground, but soon recovered. Mr. Elliott was slightly stunned, but unhurt.

An unknown woman, whose name could not be learned was stunned and thrown against the fence.

The barn of Mr. Fay Arbery, on the Lexington pike, was struck by lightning and destroyed, together with contents.

EPWORTH LEAGUE CONFERENCE.

(Continued.)

pear as large as some others. But this can easily be corrected in future reports by our liberal and ambitious members.

The most encouraging fact, however, is that the new members are mostly young people, who are certain to develop into zealous workers for the Master's vineyard.

From the earliest times men have been erecting buildings. They are still erecting them. But the building which the Paris Epworth League has had under construction and which they have about completed, is far different and quite unlike all others fashioned by human hands. The foundation of our mansion is "All For Christ," the doors are the doors of hospitality, the ascending stairs of gold and white lead to the magnificent dome which arches the heaven, illuminated with the light of friendship and brotherly love. As doorkeepers of this mansion we throw open the lockless doors to you as our guests.

We have looked forward with great pleasure to this meeting, and we take much pride in welcoming you to this city, the heart of the Bluegrass. We

REV. J. B. HARRIS,
President Kentucky Conference Epworth League Assembly

are well provided to take care of you, and should any of you take suddenly ill, we have within quick call, Osteopaths, Allopaths and Homeopaths, "and all the paths that lead but to the grave."

We bid you something more than welcome: We want you to know and to feel that you are no longer visitors, but that our homes are your homes, and that you have access

To Paris, the garden spot of the world where all beauty seems to blend, And reflect, like some great mirror stationed there by Nature's hand.

And to you, Mr. President, as this is the first time for you to preside over the Kentucky Conference League, the Paris Chapter desires to make you a present of a very unique gift. Last year Paris suffered a considerable drouth, the most severe known even by our oldest citizens. This drouth revealed in the dry channel of Stoner Creek, near the Paris Mill, an old dam, which the court records show was built in the year 1792. From the wood taken from this old dam we have caused to be made the handle of this gavel, and the Paris League has asked me to present you this gavel and bid you take charge and rule as leniently as Uncle Joe Cannon, or at least as kindly as Old Man Grump.

Again with all my heart I welcome all of you in the name of the good people of this city, and to the end of my life I would bid you to

"Come in the evening or come in the morning,
Come when you are looked for or come without warning;
A thousand welcomes you'll find here before you,
But the oftener you come the more we will love you."

REV. J. S. SIMMS,
Host of Epworth League Conference.

KENTUCKY WOMAN, SUFFERER FROM STOMACH ILLS, QUICKLY RESTORED

Mrs. Belle Hawkins Uses Mayr Remedy—"Never Felt Better In My Life."

Mrs. Belle Hawkins, Eminence, Ky., was a victim of stomach disorders. She took a great deal of treatment and medical attention.

At last she tried Mayr's Wonderful Stomach Remedy and got real results. In a letter telling of her experience she said:

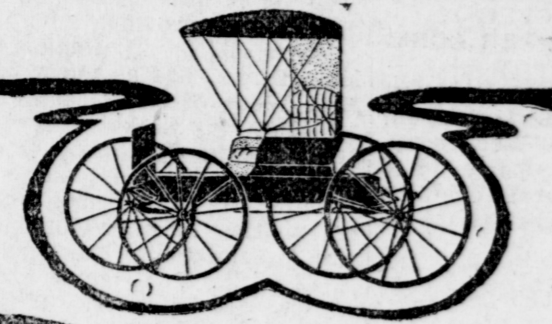

"I have taken all of the medicine I ordered of you and will say it has done more good than all the doctors and medicine I ever tried. I don't really think I need any medicine now, as I think I am well. I never felt better in my life. If I ever should need any medicine I know where to get it."

That is a typical letter, taken as one among the thousands from the users of Mayr's Wonderful Stomach Remedy. The first dose proves—no long treatment.

Mayr's Wonderful Stomach Remedy clears the digestive tract of mucoid accretions and removes poisonous matter. It brings swift relief to sufferers from ailments of the stomach, liver and bowels. Many declare it has saved them from dangerous operations and many are sure that it has saved their lives.

Because of the remarkable success of this remedy there are many imitators, so be cautious. Be sure it's MAYER'S. Go to G. S. Varden & Son drug store and ask about the wonderful results it has been accomplishing—or send to Geo. H. Mayr, Mfg. Chemist, 154-156 Whiting St., Chicago, Ill., for free book on stomach ailments and many grateful letters from people who have been restored. Any druggist can tell you its wonderful effects.

THE SHERWIN-WILLIAMS BUGGY PAINT

was originally made for re-painting and re-finishing old buggies, and combines all the toughness, durability, and strength of color necessary to withstand the hard wear a buggy gets. There's no other paint for the purpose as good and economical.

It's splendid wearing qualities make it also adaptable for painting porch and lawn furniture and all articles subject to outside exposure where a strong, gloss finish is wanted.

INSURANCE COMPANIES LOSE IMPORTANT CASE.

Following a decision rendered after these cases had been adjudicated by the trial court, the Court of Appeals Friday morning reversed the Franklin Circuit Court in the cases of the State Auditor, Bosworth, against the Washington Life Insurance Company and the Illinois Life Insurance Company to collect premium tax on premiums collected by them after they were liable for the tax on business they had written before their withdrawal. The suit against the Washington Life was for 2 per cent. tax on \$49,000 and against the Illinois Life for the tax on \$75,000.

Judge Hannah wrote the opinions in both cases.

The eighth eruption of Mount Lassen, near Redding Cal., since it last became active, on May 30, was distinctly visible there at noon Saturday, notwithstanding a thick haze that had obstructed the outlines of the mountain, fifty miles away.

INDIGESTION AND CONSTIPATION

"About five years ago I began taking Chamberlain's Tablets after suffering from indigestion and constipation for years without finding anything to relieve me. Chamberlain's tablets helped me at once and by using them for several weeks I was cured of the complaint," writes Mrs. Mary E. McMullen, Phelps, N. Y. For sale by all dealers.

CROP REPORT JUNE 1, 1914.

The month of May was an unusually dry one in Kentucky. The crop reports coming to this office as of June 1st, show that there was practically no rainfall in Kentucky from May 8th to June 1st. Almost every report speaks of the drought, but the damage up to June 1st has not been serious. Since this time copious rains have fallen in many parts of the State. The best rains have occurred in the central and eastern portions of the State. Showers over limited areas have occurred in the western sections.

Wheat cutting has begun in the southern portion of the State, and the indications are that we will have a record-breaking crop in Kentucky. Condition is given at 96 per cent. at the beginning of the harvest, and it is now too late for weather conditions to prevent the maturing of a large yield of wheat of splendid quality. The crop has but one danger to run now, and that is, an excessive rainfall while in the shock. Rye has held its own and the condition is given at 93 per cent. This crop is practically made. Another crop that is made and ready for harvest is the Bluegrass seed crop, which will be large and of good quality. Condition of Bluegrass is given at 96 per cent.

The corn acreage is given at 96 per cent., while the condition is stated at 87 per cent. The drought to a certain extent has affected both the planting of the corn and the condition of that planted. The damage to corn, however, is probably not very great, as the rains that have fallen since the first of June will remedy much of the trouble indicated by the reports. Oats, however, with an acreage of 89 per cent, has suffered materially in condition, the latter dropping to 74 per cent. A rain would help the oats crop some, but this can not possibly be a heavy crop this year.

Tobacco beds have suffered in a measure from the drought. Lack of moisture has prevented the transplanting of plants at the proper time, and there are complaints of the plants getting too large for transplanting. This damage, however, can not be considered as very serious. Condition of Burley tobacco is given at 86 per cent., and that of dark tobacco 81 per cent. Cut worms are doing considerable damage to both corn and tobacco.

Alfalfa and orchard grass are both given at 86 per cent., and have not suffered as much from the drought as young clover and timothy, which show a condition of 74 per cent. Garden conditions are given at 80 per cent. The prospects for a large fruit crop remain good, but the strawberry crop was cut to about 60 per cent. of a crop as the result of the dry conditions at maturity. Indications are for a large blackberry crop, this being given at 96 per cent; grapes at 87; apples 78; peaches 84; pears 72, and plums 78 per cent.

All live stock is in good condition, comparatively speaking, with lambs beginning to show the effect of short pastures. Condition of horses is given at 95 per cent; cattle 94; hogs 91; and sheep and lambs at 90. Young turkeys have suffered from the heat, and their condition is given at 82 per cent; ducks at 90 and chickens at 95. The hay crop has been cut down some by lack of moisture.

Taken as a whole, the wheat, hay and bluegrass seed crops are assured, while the corn and tobacco crops are not injured to an irreparable extent. Seasonable weather can yet make this year a prosperous one to the farmers in Kentucky.

Commissioner of Agriculture.

One reason why there are so many hypocrites in the world is because every child is told to tell the truth and be polite. If you tell the truth you are due for a good clubbing, and if you are polite you have to be a slick liar.

Why is it that a girl can look so dainty when she is dressed in white and a man always looks like he was peddling something when he tries it?

MRS. WINN'S ADVICE TO WOMEN

Take Lydia E. Pinkham's Vegetable Compound and be Restored to Health.

Kansas City, Mo.—"The doctors told me I would never be a mother. Every month the pains were so bad that I could not bear my weight on one foot. I began taking Lydia E. Pinkham's Vegetable Compound and had not finished the first bottle when I felt greatly relieved and I took it until it made me sound and well, and I now have two fine baby girls. I cannot praise Lydia E. Pinkham's Vegetable Compound too highly for what it has done for me. I always speak a word in favor of your medicine to other women who suffer when I have an opportunity."—Mrs. H. T. WINN, 1225 Fremont Ave., Kansas City, Mo.

Read What Another Woman says: Cumming, Ga.—"I tell some suffering woman every day of Lydia E. Pinkham's Vegetable Compound and what it has done for me. I could not eat or sleep, had a bad stomach and was in misery all the time. I could not do my housework or walk any distance without suffering great pain. I tried doctors' medicines and different patent medicines but failed to get relief. My husband brought home your Vegetable Compound and in two weeks I could eat anything, could sleep like a healthy baby, and walk a long distance without feeling tired. I can highly recommend your Vegetable Compound to women who suffer as I did, and you are at liberty to use this letter."—Mrs. CHARLIE BAGLEY, R. 3, Cumming, Ga.

WHAT'S THE REASON?

Many Paris People in Poor Health Without Knowing the Cause.

There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache; suffer from nervousness, dizziness, weakness, languor and depression. Perhaps the kidneys have fallen behind in their work of filtering the blood and that may be the root of the trouble. Look to your kidneys, assist them in their work—give them the help they need. You can use no more highly recommended remedy than Doan's Kidney Pills—endorsed by people all over the country and by your neighbors in Paris.

Mrs. Hodge, 821 West street, Paris, Ky., says: "I had dizzy and nervous spells and my back and head ached, showing that my kidneys were weak. When I saw Doan's Kidney Pills advertised, I used them and they gave me relief."

Mrs. Hodge is only one of many Paris people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Hodge had—the remedy backed by home testimony. 50c all stores. There is nothing new under the sun. The potato sack skirt as worn to-day. The potato sack skirt as worn to-day worn upside down.

A corset company advertises a new model that will produce the "natural line effect." Venus and September Morn are there with the natural line effect, but they must have forgotten the corset.

A woman's idea of Economy is to spend 45 cents making 3 cents worth of stale bread up into an alleged "pudding" that nobody will eat.

When a man gets home at 2 a. m. and has to ring the door bell until 3 a. m. before he wakes his wife up to let him in, she will begin indignating and claiming that she never slept a wink all night waiting for him.

There are a few modest men in the world. But there never was a man who didn't claim to be a good judge of human nature.

The old-fashioned woman who used to get the grocer to tie the groceries up with a piece of stout cord so she could use it for a corset lacer, now has a daughter who must have the Silk Tubular kind, eight yards long and two-bits a throw.

It is pretty tough to have to pay an old bar bill. But it beats paying installments on the diamond engagement ring who copped out another sucker and kept the ring.

All parrots and some people talk a good deal without offering a satisfactory excuse.

If there are any girls in the family Father is either expected to keep away from the front porch after supper or doll up like a Dude so he won't shock the young men callers. And Father will indignantly about it being HIS front porch and that he will do as he darn pleases. But it always winds up in father sulking in the house and spitting on the floor to show his independence.

Styles never change. Forty years ago they wore lace trimmed pantallettes that were visible several inches under the skirt. And now the bladed things are back again disguised as the latest mode.

A smart corset salesman writes me from Louisville that he tells people he sells jewel cases.

You don't hear much about the old-fashioned Peeping Toms these days. What's the use of taking a chance of being shot when you can let a girl walk between you and the sun?

A whole lot of mutts who are roaring for war with Mexico let their wives whip them once a week and say nothing about it.

If the styles get any worse a whole lot of the fashion publications will be barred from the mails.

SAYS SULPHUR IS SURE TO RELIEVE ITCHING ECZEMA.

Get An Ounce of Bold-Sulphur Cream and Heal Skin Eruptions Right Up.

Any breaking out or irritation on the face, arms, legs or body when accompanied by itching, or when the skin is dry and feverish can be readily overcome by applying a little bold-sulphur cream, says a noted dermatologist.

He informs us that bold-sulphur instantly allays the angry itching and irritation and soothes and heals the Eczema right up leaving the skin clear and smooth. Bold-sulphur has occupied a secure position for many years in the treatment of cutaneous disorders because of its parasite-destroying property. Nothing has ever been found to take its place in treating the irritable and inflammatory skin affections. While not always establishing a permanent cure it never fails to subdue the itching irritation and drive the Eczema away and it is often years later before any eruption again appears on the skin.

Those troubled should obtain at any pharmacy an ounce of bold-sulphur cream which is applied to the affected parts in the same manner as an ordinary cold cream. It isn't unpleasant and the prompt relief afforded, particularly in itching Eczema, proves very welcome.

RIGHTS OF PEDESTRIANS UPHELD BY JUST JUDGE.

Pedestrians have the right of way at street crossings, and drivers of vehicles "must recognize this right at their risk," declared Judge Sulzberger in the Quarter Sessions' Court in Philadelphia, in refusing a new trial to William K. Hoskins, driver of an automobile, convicted of involuntary manslaughter for running down and killing Mrs. Eliza B. Rothwell, there last November. Hoskins was sentenced to six months in jail and to pay a fine of \$250.
